Dear Friend of South Dakota Right to Life,

Whether it is a restaurant, a movie, a concert or any event, everyone loves to have their expectations exceeded. We love it when people go the extra mile surpassing what we originally anticipated. "I was expecting a meal, but that was over the top amazing!"

"I was expecting a good conference, but the personalized welcome bags were totally unexpected." Yes, it is wonderful when expectations are exceeded.

As South Dakota Right to Life (SDRTL) labors at educating and legislating for the 'Sanctity of all Human Life' we so want to exceed your expectations.

***I can assure you that South Dakota Right to Life exceeds expectations because the 'Value of Life' is our calling.***

It is what motivates us to provide the very best care.

The reason that we talk about it at all, is because every stage of life has value, from conception, to the classroom, to the workplace, to the nursing home, to the end of its natural conclusion, every life has value.

**Truth be known...**we have been able to exceed expectations because of the generous support of friends like you. SDRTL is in our fifty third year of advocating for babies, mothers, fathers and families. Our Staff and Board of Directors are strategically positioned to encourage, empower and reinvigorate individuals, families, communities and our great State to continue **STANDING FOR LIFE**.

At SDRTL we are deeply committed to our vision that one day, no more babies will cry in their mother's womb and no more mothers and fathers will be wounded. We are committed to going over and above what people expect so parents will never walk alone again.

**Thank you for being a SDRTL Partner.** We know our calling to love, serve and bless babies, mothers, fathers and families can only be accomplished with friends like you.

Thank you for investing in this strategic cause of life!!

God is Changing Lives...  
Through Your Partnership!

**May I count on you to stand with us for the children?** Yes, we won a great victory with the **Defeat of Amendment G**. However, what really was won was an opportunity... an opportunity that can be easily lost forever if we lessen our efforts.

Remember, when you help **South Dakota Right to Life** you are also helping the effort to save children nationwide because **SDRTL** is the only organization in South Dakota that is part of the National Right to Life network of statewide affiliates and 3,000 chapters across the nation. Our unified voice is heard strongly for life both here in South Dakota, in Washington, DC and throughout the land.

**Please help today.** Whatever you can send, \$25, \$50, \$100, \$500 or more, really matters.

Every donation counts and is used as carefully as possible to advance the cause of life for those innocent children who can't speak for themselves... children who need your voice to speak for them.

On their behalf, I thank you from the bottom of my heart. May your ***Christmas Season*** be filled with joy and peace as we continue to protect the 'Sanctity of All Human Life' in South Dakota.

Prayerfully Exceeding Expectations,

A handwritten signature in blue ink that reads "Dale Bartscher". The signature is stylized and includes a long horizontal line extending to the right.

Dale Bartscher, SDRTL Executive Director

P.S. May God bless you and your loved ones for all the good you do in this world. These are troubled times, and the world is blessed because pro-life people like you are in it. Please keep the work of **South Dakota Right to Life** in your prayers and thank you again for helping today.
